SWIMMERS' PROGRESSION

In order for noticeable gains, swimmers are encouraged to take up 2 lessons per week to be exposed sufficiently. Please do not expect your child to make equal and constant progress in every training session. Learning to swim may not be the easiest of accomplishments for all children. In particular the breathing technique can be especially difficult and may take several lessons before the swimmer can master it. It is common for your child not to show progress at certain stages, in fact they may even regress after several sessions. Please be patient as it is part of their learning process. Parents should not express your anxiety to your child. We are here to impart them a life skill. Some may make rapid progress and some may take longer. Please do not compare your child's progress with another swimmer. Your understanding and support towards the development of your child is much appreciated.

INDEMNITY

In this declaration, I hereby agree that I will not hold the Chinese Swimming Club, their appointed staff or officials responsible in any way for any mishaps, injuries or loss of life or loss of damage to any property howsoever arising out of or in the course or in connection with the above activity; and I shall indemnify Chinese Swimming Club and their appointed staff and officials from any actions, proceedings, liabilities, claims, damages, cost and expenses which may be brought by or asserted against them by any person in any connection with the same.

I hereby agree to abide by the rules and regulations stipulated above, subjected to any amendments from time to time.
